Professional Summary

Final-year B.Tech Computer Engineering student specializing in Artificial Intelligence, developing projects involving AI-powered applications, multi-agent LLM workflows, NLP, and web development. Interested in applying programming and problem-solving skills to practical software engineering challenges.

Education

Marwadi University, Rajkot, Gujarat B.Tech in Computer Engineering (Artificial Intelligence)	2024 – 2027
Sri Jyothi Polytechnic, Vuyyuru, Andhra Pradesh Diploma in Computer Engineering (Artificial Intelligence)	2021 – 2024
Sree Lakshmi English Medium School, Nandyal – Secondary Education	

Technical Skills

Programming: Python, JavaScript, C, HTML, CSS
Frontend: React.js, Responsive Web Design
Backend: Node.js, Express.js, FastAPI
AI/ML: NLP, TF-IDF, LLMs, Generative AI, Multi-Agent Systems
Database: SQLite, MySQL
Tools: Git, GitHub, VS Code, Streamlit, LangGraph, ChromaDB

Projects

- Multi-Agent LLM Pipeline for Code Review and Bug Fixing** *Python, LangGraph, Groq, ChromaDB*
 - Developed a multi-agent workflow for code review, bug detection, security analysis, and code improvement.
 - Integrated test generation and validation agents to support software quality analysis.
- Zenith AI – Advanced Job Recommendation Platform** *React, Node.js, Express, SQLite, NLP*
 - Developed a job recommendation platform using resume parsing and NLP-based skill matching.
 - Applied TF-IDF to compare candidate skills with job requirements.
- Compiler Front-End** *C, Flex, GNU Bison, JavaScript*
 - Implemented lexical and syntax analysis, symbol table management, and error handling.
 - Developed interactive compiler processing visualization.
 - GitHub: github.com/SIVA2102004/Compiler-Front-End
- AI-Based Spare Parts Identification and Inventory System** *Python, SQLite, Gemini API, OCR*
 - Designed an AI-assisted system for spare parts identification and inventory search.
 - Explored OCR and similarity-based matching for industrial component identification.
- Ganesh Chanda – Donation Collection and Receipt Management** *Web Development*
 - Developed a community donation management project for collection records and receipt generation.
 - GitHub: github.com/SIVA2102004/NAGESHWAR-CITY-YOUTH-COMITEE

Experience

Singular Technologies Pvt. Ltd. Trainee	Nov 2023 – May 2024 Secunderabad, Telangana
Marwadi University Volunteer – Supported university activities and event coordination.	Aug 2025

Certifications

- AWS Academy Cloud Foundations – Jul 2025
- Automated Software Testing with Python – Udemy, Feb 2026
- Generative AI Mastery Workshop – NxtWave, Aug 2025
- Model Context Protocol Mega Workshop – NxtWave, Aug 2025
- LLMs and Agentic AI Masterclass – NxtWave, Sep 2025
- UI/UX Design Workshop using Figma – NxtWave, Dec 2024

Achievements

- Consistent Champion – Code to Win Challenge, NxtWave, 2025.
- Volunteer Appreciation – AISTS 2025 International Conference, Marwadi University.

Patent Publication

Meeting Room Management System – Patent Application Publication No. 202621006605 A, Indian Patent Office, published 06 March 2026.
